Importance: Normal
Sensitivity: Not sensitive

Dr. Sanwat Chaudhuri and I will be co-speakers for the UT conference.
I will speak at AZ conference.

We would like to modified the topics for the analytical chemistry session.

1:15 p.m. - 2:00 p.m. SESSION 3 -Analytical Methods

- Chemistry of Perchlorate
- Background on Analytical Techniques.
- Analysis of Perchlorate by Ion Chromatography (IC)
- Interlaboratory Study on the Performance of IC Methods
- Anion Interference Study
- Stability Study
- Effects of Methods Parameters

** High Priority **

Dear Subcommittee chairs,

The topic of the recent Executive committee meeting was to plan for the upcoming 1-day Stakeholder forums in (1) Salt Lake City, UT and (2) Phoenix, AZ that are scheduled "back-to-back" the week of August 24th.

Please see the attached for the most recent agenda and a list of "to do" items. The "speaker(s) to be determined" parts are where we need your help! Note that the Excomm is slated to confirm all speakers by next Friday, July 24th. As you can appreciate from the ambitious agenda that essentially condenses the Henderson meeting into a 1-day roadshow, we would not expect more than 2 speakers for each topic.

Please work within each of your committees to suggest available speakers so that we can contact and confirm commitment by the end of next week. Comments on the proposed agenda are also welcome.

Please E-mail all of the Excomm (Lt. Col. Dan Rogers, Peter Grevatt, Mike Osinski, Kevin Mayer and myself) or I can be the voicemail contact as needed should there be questions or if you want to discuss options.

Thanks in advance for your help. Obviously the Henderson meeting was such a success that there is a demand for additional presentation.

Also,
be aware that speaker notes (i.e., copy of slide presentation) is due by
8/14 to Dan.

Annie.
